DLC available on PlayStation® Store: (Available for download) Chaos Wars - Special Campaign Mode (PlayStation®4 version only) Chaos Wars - Special Campaign Mode is a special mode where you have to defeat tens of thousands of enemies and monsters. The battle will be engaged if you defeat these enemies. If you would like to replay the battle scenes, you will have to replay all the boss battles in the game which cost money, so you should be fully prepared to play. ● Control The UI is represented with the right analog stick. In this mode, enemy monsters will appear on the screen. While you need to press a button for input, you need to target them with an aim in order to defeat them. Unlike the other battle modes, there is a special command in addition to these commands, and you can repeat it as many times as you want. You can also use a special command to deal more damage to the enemies, but it takes longer to use and reduces your speed. ● Attack You can only attack the enemies when you target them with your character. If you move and attack at the same time, your attack will miss the enemy. If you move, the enemy will not be attacked at that time, so the enemies can notice and change their movements. ● Special Skills The skills are displayed by holding X. You can set the skill effect to be applied by X. The skills can also be repeatedly used by pressing the Square button. You can use a special command to deal more damage when you use the skills. - Summons a Mystic Summons a Mystic in your party to give more HP. You can use the Mystic as any other member in your party. - Summon a Phantom Summons a Phantom in your party. You cannot use the Phantom until it uses its skill. You will be able to travel together with the Phantom. - Phantom Skill When you use a skill that is available for the Phantom, it will be used and any skill effect will be applied. If the skill is not available for the Phantom

This is far from perfect but it works as a nice temporary fix until this patch is released. I've removed the ravenous lions (yes i have all eight of them + all the beasts in yaru's den) and replaced them with tigers for now.
The lions are not affected either which is why I moved them back to where they were with the beasts.

Hello everyone, I just want to say that I'm looking over the combat with the new skills and the effect they were having on towers and disables and I've found a pretty big issue. If I connected to a tower on the first day, my damage over time effects didn't go away. The combat log will not have this info, but gameplay will. -Kacem

Will log a bug report for that...also, it may work as intended, as most of those towers don't stand around long after the first few waves of attacks if you do string attacks for long enough...example: I was trying to get an armorsmithing and kines

LOUIS (KMOX) – Golden State Warriors head coach Steve Kerr has received the James Erskine Leadership Award from the Pro Basketball Writers Association of America. Erskine, the first player to win a National Basketball Association scoring title in back-to-back seasons, was selected as the league's top executive to mentor young players, according to the association. Erskine's leadership abilities included influencing the 1994 union elections and leading the drivers to the 1994-95 campaign. He retired in 1996 as the most decorated player to ever come out of the UCLA basketball program.Liposomal cytarabine for the treatment of relapsed or refractory acute myeloid leukemia. Relapsed acute myeloid leukemia (AML) has poor prognosis. We evaluated the safety and efficacy of liposomal cytarabine as salvage therapy for AML. A phase 2 study was conducted in 60 patients with refractory or relapsed AML who were administered cyclophosphamide and 5-fluorouracil and 50 mg/m(2) or 100 mg/m(2) liposomal cytarabine per os daily for 5 days. A total of 39 patients were evaluable for safety. The overall median patient age was 42 years (range, 14 to 66 years). A total of 18 patients (45%) had AML M(0) and 26 (66%) had AML M(2). Patients received a median of 1.5 and 4 cycles of liposomal cytarabine, respectively. Overall, 29% of patients responded to therapy (complete remission, 15%; partial remission, 14%), and 30% achieved stable disease. The most common adverse events were nausea (32%), vomiting (13%), and stomatitis (13%). Other adverse events were neutropenic fever (8%), vomiting (6%), and diarrhea (
